

## COMPONENTS

# Seating and cushion elements

### Our range of services:

Comfort and cleanliness of the customers' area are the hallmark of your vehicle fleet in the discerning regional transport and passenger traffic. As manufacturer independent

service provider we are experienced since many years in maintaining and redesigning seating and cushion elements – so that your customers feel comfortable!

### Our diversified portfolio in the field of seating and cushion elements includes:

#### Maintenance of seats

- Driver's seats for multi-unit rail cars, control cars and traction vehicles
- Individual seats and double-seats for long-distance transport and local traffic vehicles
- Seating elements and backs for historic vehicles with spring system

#### Redesign of seats and seating ensembles

- Manufacturing of sample parts and small batches
- Upholstering of seating elements in leather or cloth finish
- Surface treatment of seat frames, bucket seat and back elements

**For more information please contact our sales team.**

RailMaint GmbH is leading in the field of maintaining and refurbishing rolling stock of the freight and passenger traffic sector. Our maintenance services, products and Mobile Services sustainably strengthen the availability, reliability and durability of our customers' rolling stock.
